## SKILLS

---

**Languages :** Java, HTML, CSS, JavaScript, Sql, Python, C

**Libraries/Frameworks :** ReactJs

**Soft Skills :** Leadership, Problem Solving, Analytical thinking, Adaptability

## PROJECTS

---

**Truly Electronics** | ReactJs, MongoDB

March 2024 - June 2024

- An e-commerce platform with the tag line 'From Silicon Valley to Your Hands-Swing Your electronics'.
- An e-commerce platform where users can browse through electronic products, search for specific items, and filter products based on the company and pricing.
- They can add items to their cart for purchase.

**Parallax Effect** | HTML, CSS, JavaScript

February 2024 - March 2024

- I have developed a parallax effect website that dynamically reacts to mouse movement, creating an immersive depth effect with smooth animations.
- This interactive design enhances user engagement and provides a visually captivating browsing experience.

**Street Fighter** | Java

June 2023 - July 2023

- A 2D fighting game using Java and IDE Eclipse that is designed for 2 players.
- The game revolves around two characters engaging in a combat.
- The emphasis was on creating smooth and responsive controls to ensure high-end user experience.

**Golf Site** | HTML, CSS, JavaScript, GSAP

January 2023 - January 2023

- This website is a clone of Sidecup Family Golf, built with HTML5, CSS3, and JavaScript.
- It features responsive design, smooth animations, and an interactive experience across all devices.
